

Direct sellers know a good opportunity when they see one.

Rebecca earns extra money, balances work and family and gets great products at a discount thanks to direct selling.

U.S. Representative Brenda Lawrence is fighting for Rebecca and more than 375,000 Michiganders like her by co-sponsoring H.R. 5230 in Congress. This bill helps consumers avoid business scams and lets direct sellers continue to support their families and purchase products they love.

Let's support candidates who stand up for people like Rebecca.

Vote LAWRENCE on November 8.

Paid for by Direct Selling Empowers Americans, the Direct Selling Association's SuperPAC.
